## I. Introduction

1. Pursuant to Pre-Trial Chamber I's "Decision on Information and Outreach for the Victims of the Situation" issued on 13 July 2018 ("Chamber" and "Decision of 13 July 2018", respectively),[1] the Registry hereby submits its thirty-third report on the progress of its activities related to information and outreach for victims and affected communities in the situation in the State of Palestine ("Palestine" and "Situation", respectively).

## II. Procedural History

2. On 13 July 2018, the Chamber, in a previous composition, issued a decision by which it, *inter alia*, ordered the Registry to: (i) "establish, as soon as practicable, a system of public information and outreach activities for the benefit of victims and affected communities of the situation in Palestine";[2] (ii) submit an initial report on its activities "at a time deemed appropriate but no later than 14 December 2018" and inform the Chamber, every three months, about the progress of its information and outreach activities and the challenges encountered;[3] and (iii) "create an informative page on the Court's website, especially directed to the victims in the situation of Palestine".[4]
3. Since 12 November 2018, the Registry has regularly filed periodic reports on the progress relating to information and outreach activities for victims and affected communities in the Situation.[5]

meeting served as a platform to strengthen institutional ties, discuss shared priorities and challenges, and explore opportunities for enhanced cooperation, including in relation to the Situation. Particular attention was given to identifying potential joint outreach initiatives that could support engagement with legal professionals and enhancing awareness of relevant legal and institutional developments.

9. [Redacted].
10. Where appropriate, updates related to the Situation are published on the Court's website and shared with key stakeholders.

### b. Activities carried out by the VPRS and information received

11. Throughout the reporting period, the VPRS continued responding to the victims and interlocutors who reached out through a combination of remote and in-person engagement. It addressed enquiries concerning victim participation and relevant judicial developments, while maintaining close cooperation with several teams of legal representatives of victims ("LRVs").[9] In this context, the VPRS provided the LRVs, upon request, with information and assistance concerning procedural developments, victims' rights and matters related to their legal representation.
12. On 2 September 2026, the VPRS met, at the seat of the Court, with a delegation of [Redacted] who expressed interest in assisting [Redacted] victims currently living in [Redacted]. The VPRS offered to organise further informative sessions and training on how to complete victim applications for participation in proceedings and reparations.
13. Similarly, in its meeting with the delegation from [Redacted],[10] it was brought to the VPRS' attention that members of the delegation are in close contact with

victims of the Situation. The VPRS proposed providing specific and practical trainings for such members on victims' rights before the Court and in particular on the application process.

14. During the reporting period, the VPRS received five applications for participation in the proceedings and/or reparations. The total number of victim applications received in the Situation presently stands at 1,724. The vast majority of applications received, including their supporting documentation, were completed in Arabic. All applications received are registered in the VPRS' dedicated database and assigned a unique reference number.

## B. Subsequent activities

### a) PIOS

15. [Redacted].

### b) VPRS

16. Subject to the prevailing security conditions, the VPRS will maintain its engagement with victims and representatives of victims' groups, both directly or through interlocutors. Through this engagement, the VPRS will continue to provide information on victims' rights before the Court and facilitate their ability to exercise those rights. It will also pursue its assessment of information technology tools and accompanying methodologies that may render the victim application process more accessible, user-friendly and meaningful.

17. The VPRS and the PIOS will maintain close coordination and, where circumstances permit, undertake joint activities. More broadly, the Registry will continue its efforts to engage with victims in the Situation and provide them with relevant information about the Court and the rights available to them.
