Dear Trial Chamber X, dear Colleagues,

We are in the process of preparing the confidential – and public – redacted versions of the ‘Joint Report pursuant to Trial Chamber X’s “Order for Submissions on Reparations’’. It occurs to us that for the Trust Fund to be able to assist with potential leads, should the Chamber be minded accepting our request for an extension of time, it would be very helpful if it had access to the confidential redacted version of the filing.

Would the Chamber thus be minded granting such access – obviously regardless of its consideration whether or not to grant the extension of time request?

Thank you very much and kind regards,
