Dear Judges/Ambassadors,

RE: JUDICIARY SHOULD NOT RISK RULE OUT UHURU FROM PRESIDENTIAL RACE

If you are men enough, make a mistake of making a judgment on Friday stopping Uhuru Kenyatta (and his running mate William Ruto) from being candidates in next month's elections.

Before you do that buy your own coffins and graves. We will cut off your heads and feed them on wild animals in the Nairobi National Park.

We are tired of being bullied by America, Britain and the European Union. We know your boss the chief Justice is a stooge of the Americans. We know Hillary Clinton, Koffi Annan (CIA Stooge) and Jonnie Carson have instructed him to frustrate Uhuru not to become Kenya's 4th president.

Uhuru is our crown prince and must become president, come what may. No one will stop him. He is our candidate. We get what we want, mpende msipende.

When in 2007/8 some jokers tried to get to state House by force we marched on Naivasha, Nakuru and Kibera and chopped off a few heads plus circumcised 'kihii' yote. Nobody could stop us, we are still free, more protected, and much stronger. In fact we are now more armed and prepared.

Our father who organized us from the big house is still in charge. He has instructed us to protect Uhuru Kenyatta his preffered successor. Our father did not have to publicly endorse Uhuru to succeed him because it is obvious. We are firm and resolute that nothing, not even noisy Kenyan voters will stop Uhuru from becoming our next President.

And warn chief Justice Willy Mutunga to advice his mzungu godfathers and their local political bootlickers that if they push us to the wall, we will invade white farms and grab them. Tell them to prepare a big cemetery to bury the notorious ones who will try to stop us. Ours will be bigger than what 'Maumau' and Mugabe did put together.

Let these kidding ambassadors and High Commissioners start packing to leave Kenya atleast by March 2, at the latest. Because after March 5 when Uhuru goes to State House , we will kick them out; and those resisting we have the option of slaughtering them. Bloody racists. To hell they go.

Enough is enough. Be warned. Touch Uhuru and we bum Kenya down.

Be warned
