Subject: Defence requests under Regulation 35 to add items List of Material for P-0150

Dear counsel,
Dear colleagues,

The Single Judge notes the Defence requests authorisation to add three items to its list of material to be used with P-0150 (e-mails of 29 June 2021 at 9:13 and 11:36).

The Single Judge notes that one item is the partial transcript of a video already in the list of material. As regards the remaining three items, the Defence submits these are more legible versions of items already in the list of material.

The Single Judge notes that no prejudice is caused by the late addition of this material. In relation to the more legible versions, the Single Judge notes that their late addition was not objected by the Prosecution and that accordingly their use has been authorised by the Presiding Judge (T-106). As regards the remaining item, namely the partial transcript of a video, the Single Judge considers that its addition will enhance the efficiency of proceedings.

Accordingly, the Single Judge authorises the addition of the remaining item to the list of material to be used with P-0150.

Regards,
